Work Assignment No. 11-1JZZ

Dear Ms. Anderson:

I have reviewed the above referenced document and offer the following comments:

1. Page 1 - Please include the notation "N" and "W", respectively when describing the latitude and longitude.
2. Page 3, Paragraph 2 - The verb "were" is needed in the last sentence.
3. Page 6, Table 1 - The "Release Status" for AOC #2 (Non-Hazardous Waste Storage) is listed as "High Potential"; however, Appendix A states it as a "Low Potential". Similar discrepancies are found in AOC #4 and AOC #6.
4. Page 7, Paragraph 2 - The platen storage area is located on the east side of the building.
5. Page 12, Paragraph 1 - In Class GA resources, wastewater discharges of non-human or animal origin are strictly precluded.

The State's goal for a B/A classification is to achieve and maintain Class A water quality conditions.

(Reference: Water Quality Standards. State of Connecticut Department of Environmental Protection Water Compliance Unit, February 1987.)
